Letter to the Draftsman

Dear Madam or Sir:

Please note that I have converted tabular and graphical charts in my specification to drawings. In my marked-up copy of the original specification and drawings, I note to which replacement drawing it now corresponds. I have included my complete set of replacement drawings. I request your guidance on how to effect the drawings wherein I graph several lines in combination, so as to have each line distinct, in specific, please see the Figures 46 to 82.

Sincerely,

A handwritten signature in black ink, appearing to read "David Andrew D'Zmura".

David Andrew D'Zmura
